POLISH GROUND FORCE ORDER OF BATTLE

6. There was a light anti-aircraft regiment stationed in the military garrison located in the southeastern outskirts of Brzeg. There was also one Picneer-Engineering Regiment (Pulk Sapierow) in the same garrison. One field entillery regiment was stationed at Bielsko military garrison. This regiment was motorized at the beginning of 1951. I believe that it was equipped with 75 and 105 mm guns.
